

The right home. Priced right from the start.

**Designed for the way you live —
with everyday low pricing you can trust.**

The right home is about more than just square footage. It's where your life takes shape. That's why every KB home is designed with the features you need today – and the room you want for the future.

No two KB homes are ever the same because each one is uniquely built to fit your life. Personalize your home from the ground up, from floor plan and exterior style to design features and even where you live in the community. Our thoughtfully designed homes also include modern kitchens that open into spacious great rooms, expansive bedroom suites with walk-in closets, and generous storage.

At KB Home, we believe that value starts with transparency. So we price our homes right from the beginning – no inflated prices, no confusing incentives, no games – just everyday low pricing you can trust.
